## What is this product?

<b>Type</b>	The product is a unitised whole of life assurance policy held within the Scottish Friendly ISA with a chosen investment option of a Guaranteed Cash insurance fund.
<b>Objectives</b>	My Choice is a unit linked whole of life assurance policy with a chosen investment option of a Guaranteed Cash fund. It aims to provide the security of knowing that the investment value will not fall from day to day. The product is not designed as a long-term shelter for money but rather a temporary home to reduce risk to the lowest possible available from Scottish Friendly. The product invests in a deposit or range of deposits selected by Scottish Friendly and the value is further guaranteed by Scottish Friendly not to fall, no matter what happens to interest rates or the underlying deposits. Tax treatment depends on individual circumstances and can change in the future.
<b>Maturity</b>	This product does not have a maturity date or recommended holding period. The insurer cannot unilaterally terminate this product.
<b>Intended retail investor</b>	This product is intended for investors who are prepared to take on a low level of risk, investing in a deposit or range of deposits with the intention of maintaining the security and accessibility of the assets invested, in a short-term arrangement.
<b>Insurance benefit</b>	The amount payable on death is 101% of the value of units held within the policy.

## What are the risks and what could I get in return?

The risk indicator assumes you keep the product for under a year.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level and poor market conditions are very unlikely to impact our capacity to pay you.

If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme (see section 'What happens if we are unable to pay you'). The indicator shown above does not consider this protection.

## Performance scenarios

Investment	£10,000	3 Months (No recommended holding period)
<b>Survival scenarios</b>		
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	<b>£10,000</b> 0.00%
<b>Unfavourable</b>	<b>What you might get back after costs</b> Average return each year	<b>£10,000</b> 0.00%
<b>Moderate</b>	<b>What you might get back after costs</b> Average return each year	<b>£10,000</b> 0.00%

<b>Death scenario</b>		
<b>Insured event</b>	<b>What your beneficiaries might get back after costs</b>	<b>£10,100</b>

The table shows the money you could get back over the next 3 months, under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product.

The figures shown include all the costs of the product itself, but may not include all the costs you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Scottish Friendly is unable to pay out?

If you buy a policy with Scottish Friendly and we cannot pay the full amount due, you may be entitled to compensation under the Financial Services Compensation Scheme. The maximum level of compensation for claims against firms declared in default is 100% of the claim with no upper limit.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself. They include potential early exit penalties. The figures assume you invest £10,000 at outset. The figures are estimates and may change in the future.

### Table 1: Costs over time

The person selling you or advising you about this product may charge you other costs. If so, we will provide you with information about these costs and show you the impact that all costs will have on your investment over time.
